**The Illuminating Engineering Society New York City Section
Announces the Second Annual IESNYC Scholarship**

A Merit-Based Scholarship with a Monetary Value of \$ 25,000

**Open to First Year Full-Time, Graduate Degree Candidates in Architectural Lighting
Enrolled in an Accredited College/University in New York State**

Applications Accepted November 1 - December 1, 2016

The Illuminating Engineering Society New York City Section (iesnyc.org) announces it will once again offer a first-year student currently enrolled in a full-time graduate program as a degree candidate in the field of architectural lighting at an accredited college/university in New York State, a merit-based scholarship with a monetary value of \$ 25,000.

Applications are being accepted from November 1 through December 1, 2016.

For more information on the application process, visit
http://iesnyc.org/IESNYC_Scholarship

“The IESNYC has always been a strong voice for education within the lighting community,” says Brian Belluomini, president of the Section and principal of Shimstone Design Studio. “Supporting meritorious students, is our Section’s way of inspiring and nurturing the next generation of professionals in the field of architectural lighting.”

The IESNYC Scholarship remains unprecedented in the history of the IES as it is the first and only time a Section in the Society has offered a scholarship of this kind. Last year, the IESNYC

selected Sarah Dlinn, of Parsons School of Design as the first recipient of the annual scholarship.

The IESNYC also programs year-round educational courses for members and professionals in allied fields, sponsors an annual Student Lighting Competition, awards annual Thesis Prizes, and administers the Richard Kelly Grant.

About the IESNYC

IESNYC (www.iesnyc.org) is the New York City Section of the Illuminating Engineering Society. The IESNYC is a volunteer professional membership organization whose members share a mutual appreciation for and fascination with, all things lighting. They are lighting designers, architects, engineers, consultants, lighting manufacturers, lighting representatives, electrical distributors and allied professionals. IESNYC members are dedicated to promoting the art and science of illumination engineering to their members, professionals, the lighting industry, and the public through inspiring events, informative programs and educational series, social outreach, and networking opportunities.
